

BTS Technologies Inc ("BTS") has formulated this Acceptable Use Policy ("AUP") in order to encourage the responsible use of BTS's networks, systems, services, web sites and products (collectively, the "BTS Network and Services") by our customers and other users of the BTS Network and Services (collectively, "Users"), and to enable us to provide Users with secure, reliable and productive services. By using the BTS Network and Services, Users consent to be bound by the terms of this AUP. BTS reserves the right to modify this AUP in its discretion at any time. Such modifications will be effective when posted. Any use of the BTS Network and Services after such modification shall constitute acceptance of such modification.

Suspension; Termination. Any User which BTS determines to have violated any element of this AUP may be subject to a suspension or termination of service. BTS will suspend service for violation of the AUP on the most limited basis as BTS determines is reasonably practical under the circumstances to address the underlying violation. BTS will attempt to notify Customer prior to suspending service for violation of the AUP (which may be via email or any other notification); provided, however, BTS may suspend service without notice if BTS becomes aware of a violation of any applicable law or regulation or activity, including but not limited to a violation of the AUP, that exposes BTS to criminal or civil liability or that exposes the BTS network or BTS customers' network or property to harm. Such harm to a network may include, but is not limited to, risk of having an IP address placed on blacklists. BTS may take such further action as BTS determines to be appropriate under the circumstances to eliminate or preclude repeat violations, and BTS shall not be liable for any damages of any nature suffered by any Customer, User, or any third party resulting in whole or in part from BTS's exercise of its rights under this AUP.
