BTS Technologies, Inc. Helps Customers Generate New Business

Leading MTSP Enhances Customer Profitability Above and Beyond Technology Solutions

BIRMINGHAM, AL – December 23, 2025 – BTS Technologies, Inc., a leading managed technology services provider (MTSP), announced the expansion of its customer success strategy through its strategic partnership with Connect Outbound — a team redefining how modern businesses generate growth in the age of automation and AI. The partnership reflects BTS's ongoing mission to help customers not only protect their technology but also grow their revenue.

As AI transforms sales and marketing, many companies have become obsessed with automation and volume. But the most successful organizations know that relationships — not algorithms — build businesses. While typical lead generation strategies rely on massive numbers and often lead to unqualified prospects or compliance violations, Connect Outbound was founded upon an entirely different approach. Instead of blasting out cold calls or mass emails, Connect

Outbound designs precision outreach campaigns that reflect each client's brand voice, values, and goals. Their approach combines proven outreach methods with the human warmth and professionalism that today's AI-saturated market is missing.

Connect Outbound began by supporting Members of the Technology Assurance Group (TAG), a coalition of more than 150 technology companies representing over \$1 billion in annual transactions. Within just a few years, the company grew from an idea into a 27-member team and is on track to double in size next year.

"Our secret wasn't just better technology — it was better people," said Ryan Mulvany, CEO of Connect Outbound. "We bring in ambitious, coachable college students, mentor them, and help them develop both personally and professionally, then provide them with a full-time opportunity when they graduate to accelerate their careers. That growth mindset flows directly into every client relationship we manage, which is important when we act as an extension of

your in-house team, embodying winning values."

While most outbound firms measure success by call volume or email counts, Connect Outbound focuses on outcomes. The team builds custom campaigns designed to turn cold calls into warm conversations — emphasizing quality over quantity.

"Any business owner can buy a dialer and start blasting calls," added Mulvany. "But if you've ever been on the receiving end of a poorly trained rep or an AI chatbot that doesn't understand your question, you know how quickly that can ruin a reputation. We deliver precision, not noise."

For BTS's clients, the partnership means access to a proven resource for outbound growth — one that operates with the same customer-centric, results-driven philosophy BTS brings to technology.

"Technology is just one piece of the puzzle," said Roger Wentowski, President at BTS. "Our customers need systems that make their business stronger — whether that's through cybersecurity, cloud solutions, or sales enablement. Partnering

with Connect Outbound helps our clients translate operational efficiency into measurable revenue growth.”

With compliance concerns and data-privacy regulations evolving faster than ever, many companies are wary of fully automated outreach. Connect Outbound’s U.S.-based team ensures all communication is compliant, on-brand, and personal — offering a human-first alternative to risky AI-driven mass outreach.

The company’s guiding principle — “Build the people, and the people will build the business” — echoes BTS’s broader philosophy that lasting success comes from empowering people, not just deploying tools.

ABOUT BTS TECHNOLOGIES, INC.

Founded in 1976, BTS Technologies is Alabama’s leading managed technology services provider. The company’s mission is to increase its customers’

profitability, improve their productivity and give them a competitive advantage by implementing the right technology. BTS Technologies is the only provider that protects its customers from the two risks of technology - obsolescence and cost. As its customers’ trusted technology advisor, BTS Technologies has earned the position as the market leader and its customers’ business through quality products and services.

BTS Technologies is a premier Member of Technology Assurance Group, an organization of leading managed technology services providers (MTSPs) in the United States and Canada representing \$800 million in products and services. This means that the organization is the ultimate resource for Managed IT Services, Cybersecurity, Cloud Solutions, Business Phone Systems (VoIP), and Video Surveillance. BTS Technologies delivers future technology today! For more information, please visit please call 205.290.8400 or visit us at www.askbts.com.
